at 535-3102 or [dcdefrain@cox.net](mailto:dcdefrain@cox.net)

A squadron commander of a Predator unit located in Southern Arizona will discuss the Predator Unmanned Aerial Vehicle (UAV). His presentation will include how he is able to fly the UAV from Arizona over any location in the world.

The Predator UAV, which the United States Air Force describes as a MALE (medium-altitude, long-endurance) aircraft can serve in both a reconnaissance and tactical role. It has been in use since 1995 and has seen combat over Afghanistan, Pakistan, Bosnia, Serbia, Iraq and Yemen.
